

What does it take to win the America's Cup - the world's oldest sporting trophy?

Task

Your task is to answer the Big Question above using a wide range of information. You may find the information available in STEM Crew's digital resources helpful. These resources are all inspired by INEOS TEAM UK, the British challenger for sailing's America's Cup.

How to begin

1. Use the mind map sheet to plan how you will answer the Big Question
2. Watch the videos listed below and make notes about what you have learned
3. Communicate your learning by choosing your preferred presentation method

There is no single correct answer to the question. Answering the question involves research and independent learning in order to be able to present your findings to your teacher and class. You can also use information from other sources to help answer the question.

This investigation is an extended project and you should aim to spend 5-8 hours on it. Keep your **project log** up to date to make a note of all your hard work!

Videos

Watch the following video for information on the background of the America's Cup, the world's oldest sporting trophy.

Presenting your work

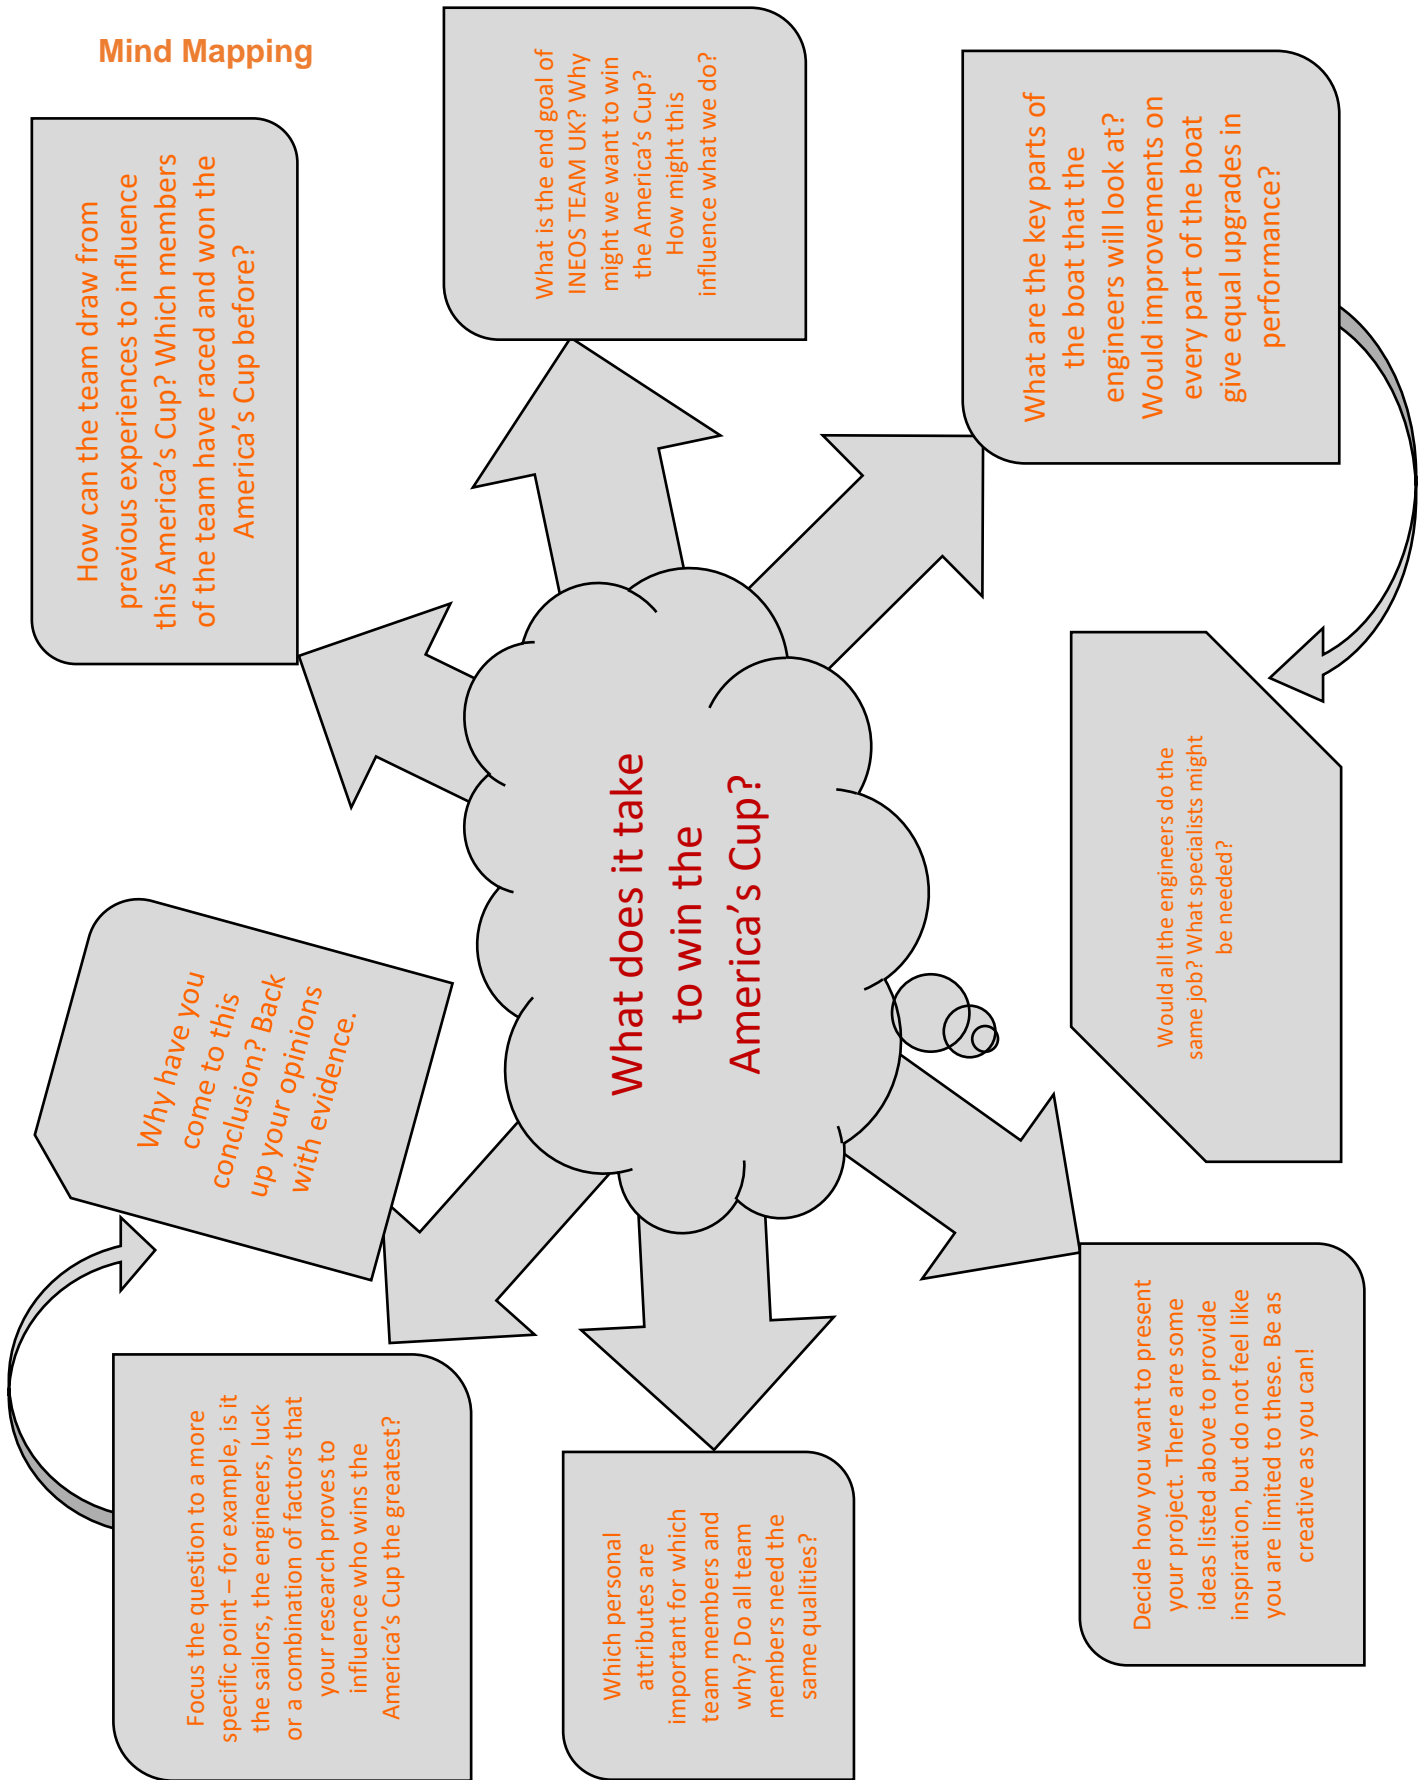

Here at STEM Crew HQ we have a focus on **creativity**. So why not be creative with how you present your project? Here are some ideas to get you started;

- Create a vlog
- Use green screen app to virtually put yourself at the INEOS TEAM UK Base or on the boat itself
- Produce a Prezi <https://prezi.com/>
- Keep it formal and produce slides using PowerPoint
- Really impress your teachers and use the Explain Everything app <https://explaineverything.com/download/>

Mind Mapping

Project Log

Date	Research and investigation completed:	Time taken
23.3.20	Watched video and made notes about history of America's Cup	30 mins
